

## SYMETRI – INDEX

Symetri uses indexing of prices according to Labour Cost Index (LCI).

LCI is a European labor cost index which since 2005 has been delivered under an EU regulation. The current LCI series have 2008 as the base year and reported according SNI2007.

The index will reflect the development of the total labor cost per hour, that is, include salary, including variable salary supplements, benefits, sick pay and employer contributions and bonuses for each EU country.

LCI is published once per quarter.
